Diplomat, editor, lawyer, business magnate-"workman," as he prefers to call himself-Kojino Matsukata is a notable figure in the commercial and political life of modern Japan He is the son of Marquis Matsukata, who was twice Premier of Nippon and for fourteen years its Minister of Finance. During this period he placed the monetary system of the country on a gold basis. He sent his son, Kojino, to be educated at Rutgers College and the Yale Law School.
